Heavy Equipment Operator Trainer

Job Description

We are one of the leading heavy equipment training companies in the Mid-Atlantic region. We are looking for experienced heavy equipment operators who can train OSHA safety guidelines and industry standards in the classroom and in the field to employees of the companies that we serve. Our clients are located nationwide. Overnight stays can be required. All travel expenses including accommodations and meals are paid, transportation is provided and a company car may be made available. Trainers are scheduled based on their availability. This is an excellent position for retired operators/supervisors looking to share their experiences or for individuals looking for a change of career within the industry.

Key Skills

- Experience with heavy equipment operation such as:
- Mobile and Overhead cranes, Backhoe/Frontend Loader,
- Skidsteer, Bulldozer, Forklift, Aerial Work Platform, Excavator, etc
- Rigger/Signalperson
- Excavation, Fall Protection, Confined Space
- Crane Inspections
- Organizational skills
- Basic computer skills
- Confident speaking to a group
